Asbestos Disposal Sites

Dear Nigel:

Enclosed please find two copies of the final Addendum to the Site Operations Plan. Please note that we have changed the sentence on page 8 to read, "The samples will be properly labeled and packed as hazardous material and sent in compliance with DOT regulations to Wadsworth Alert Laboratory in Canton, Ohio for analysis," in response to your comments on February 12, 1987. This response should satisfy your concerns and allow HART personnel to begin work at the Great Swamp Site on February 17, 1987.

Should you have any further questions, please feel free to call me at (212) 840-3990.

Sincerely,

FRED C. HART ASSOCIATES, INC.
